SMUD is partnering with GRID Alternatives to offer a free, paid certificate training program to help propel you into an exciting career in the solar energy industry! During this comprehensive four-week course, you'll get in-depth classroom instruction and hands-on rooftop experience as you develop the skills solar industry employers are looking for, including:

- Fall protection and job site safety
- First aid and OSHA 10 Certification
- Array layout
- Electrical wiring and mounting
- Conduit bending and installation
- Racking and mounting installation
- Monitoring and communication

You must be 18 or older to enroll and a resident of Sacramento County.

Participants who complete the program will receive a \$1,200 stipend upon graduation day. Course graduates will have access to potential employment opportunities with top solar firms.
