Leading the way to a greener tomorrow

With our 2030 Zero Carbon Plan, the most aggressive carbon reduction plan of any large utility in the country, we have a flexible roadmap to eliminate carbon emissions from our power supply by 2030. Partner with us in making a cleaner, greener and more sustainable energy future by enrolling in our Greenergy® program.

For as little as \$3 extra per month on your bill, we'll meet your electricity needs with power from renewable energy sources like wind and solar. Since 1997, customers like you have chosen to get their energy from clean, renewable sources through Greenergy.

Going 100% carbon free is a bold and ambitious goal – one we believe we can achieve with your support and participation in programs like Greenergy. Learn more and sign up at smud.org/Greenergy. •
